NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

INSECTICIDE RESISTANCE WARNING

GROUP

1B

INSECTICIDE

For insecticide resistance management garrards Ant Killer is a Group 1B insecticide.

Some naturally occurring insect biotypes resistant to Garrards Ant Killer 50 and other Group 1B insecticides may exist through normal genetic variability in any insect population. The resistant individuals can eventually dominate the insect population if Garrards Ant Killer 50 or other Group 1B insecticides are used repeatedly. The effectiveness of Garrards Ant Killer 50 on resistant individuals could be significantly reduced. Since occurrence of resistant individuals is difficult to detect prior to use, Garrards Pty Ltd accepts no liability for any losses that may result from the failure of Garrards Ant Killer 50 to control resistant insects.

Garrards Ant Killer 50 may be subject to specific resistance management strategies.

For further information contact your local supplier of Garrards Pty Ltd.

PRECAUTION

Do not apply granules to exposed surfaces where it may pose a hazard to children.

PROTECTION OF LIVESTOCK, WILDLIFE AND OTHERS

DO NOT apply to areas used for the preparation, storage or handling of foodstuffs. This material must not be fed to poultry or animals. This product is highly toxic to fish and aquatic invertebrates. DO NOT contaminate ponds, waterways or drains with the product or used containers. DO NOT apply to exposed surfaces where it may be a possible hazard to birds.

STORAGE AND DISPOSAL

Store in the closed original container in a cool well ventilated area away from children, animals, food and foodstuffs. DO NOT store for prolonged periods in direct sunlight. Shake containers empty onto treatment site. Break, crush or puncture and bury empty container in a local authority landfill. If not available bury the container below 500mm in a disposal pit specifically marked and set up for this purpose clear of waterways, vegetation and roots.

DO NOT burn empty containers or product.

SAFETY DIRECTIONS

Harmful if swallowed. May irritate the eyes and skin. Avoid contact with eyes and skin. Repeated minor exposure may have a cumulative poisoning effect. DO NOT inhale dust. When using the product wear rubber gloves. Wash hands after use. After each days use wash gloves.

FIRST AID

If poisoning occurs, contact a Doctor or Poisons Information Centre (Ph: 131 126).

MSDS

Additional information is listed in the Material Safety Data sheet.

DISCLAIMER

Garrard's Ant Killer 50 is supplied as a high grade product and is suitable for the purpose which it is expressly intended and must be used in accordance with the directions for use.

The user must monitor the performance of any product as climatic, geographical or biological variables may effect the results obtained. No responsibility is accepted in respect of this product, save for those non-excludable conditions implied by the Trade Practices Act or any relevant State legislation.
