Section 4: FIRST AID MEASURES

Description of Necessary First Aid Measures:	In case of poisoning by any exposure route contact a doctor or Poisons Information Centre on 131 126. Have the product label or SDS with you when calling or going for treatment.	
	Ingestion: If swallowed, seek medical advice immediately and show this container or label. DO NOT induce vomiting.	
	Eye contact: Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses. Immediate medical attention is required.	
	Skin contact:	Take off all contaminated clothing immediately. Wash off immediately with plenty of water. If skin irritation persists, call a doctor. Wash contaminated clothing before re-use.
	Inhalation:	Move the victim to fresh air. If breathing is irregular or stopped, administer artificial respiration. Keep patient warm and at rest. Call a doctor or Poison Information Centre immediately.
Poisoning Symptoms:	No information available	
Medical Advice:	There is no specific antidote available. Treat symptomatically	

Section 5: FIRE FIGHTING MEASURES

Suitable Extinguishing Media:	 Small fires Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide. Large fires Use alcohol-resistant foam or water spray. DO NOT use a solid water stream as it may scatter and spread fire. 	
Hazards from Combustion Products:	As the product contains combustible organic components, fire will produce dense black smoke containing hazardous products of combustion (see Section 10). Exposure to decomposition products may be a hazard to health.	
Special Protective Precautions and Equipment for Fire Fighters:	Wear full protective clothing and self-contained breathing apparatus. t	
Further Information:	DO NOT allow runoff from firefighting to enter drains or water courses. Cool closed containers exposed to fire with water spray.	

Section 6: ACCIDENTAL RELEASE MEASURES

Emergency Procedures:	In case of spillage it is important to take all steps necessary toAvoid eye and skin contactAvoid contamination of waterways	
Methods and Materials for Containment and Clean Up:	 Procedure for spill (1) Keep all bystanders away (2) Wear full length clothing and PVC gloves (3) Reposition any leaking containers so as to minimise leakage (4) Sweep spilt material into a pile (5) Shovel into drums (6) Disposal of material will depend upon the extent of the spill For quantities up to 50 kg of product bury in a secure landfill site For quantities greater than 50 kg seek advice from the manufacturer (use emergency contact number below) before attempting disposal. Contain in a secure location until disposal method is established (7) Decontaminate spill area with detergent and water and rinse with the smallest volume of water practicable
