READ SAFETY DIRECTIONS BEFORE USING

Pestigas™

PYRETHRINS INSECTICIDE

Active Constituent: **4g/kg** PYRETHRINS
20g/kg PIPERONYL BUTOXIDE

A compressed gas formulation for the control of flying insects, (eg. flies, moths, mosquitoes) and crawling insects, (eg. cockroaches, beetles, **ants**, silverfish) in industrial, commercial, rural, and domestic premises.
For use by licensed or other authorised personnel, as per Directions for Use Table.

Net Weight 3 l kg

The Commonwealth Industrial Gases Limited A.C.N. 000 029 729
799 Pacific Highway, Chatswood NSW 2067

DIRECTIONS FOR USE (ALL STATES)

RESTRAINTS

DO only apply PESTIGAS™ with CIG approved equipment.

For manual spray use either

- a) kit 736635 and 736685 nozzle
- b) Spray gun 736679 fitted with 736685 nozzle. Dose cylinder 736688 and Pestigas™ Fill Connector 73 100 l.

For fixed spray installations refer to CIG for approved pest control systems using programmed time release or manual release.

DO NOT allow contact with food. Ensure all items of food are properly stored, removed or covered before treatment is commenced. Food processing facilities and equipment must be thoroughly washed with an effective cleaning compound and rinsed with potable water after spraying is completed.

DO NOT re-enter treated areas within two (2) hours of completing treatment.

SITUATION	PEST	RATE	CRITICAL COMMENTS
Food storage and processing areas of warehouses animal houses, factories, restaurants, hotels, hospitals and domestic premises.	Flying insects (eg flies, moths, mosquitoes)	50g/300m ³ (17sec/300m ³ using CIG kit and 736685 nozzle).	Spray into air space not onto any surface.
		3g/300m ³ Every 30 mins.	Suitable only as a repellent.
	Crawling insects (eg cockroaches, beetles, ants, silverfish)	150g/300m ³ (50sec/300m ³ using CIG kit and 736685 nozzle).	Spray into air space. Using extended nozzle treat cracks and crevices with small amounts.

NOT TO BE USED FOR ANY PURPOSE OR IN ANY MANNER CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

GENERAL INSTRUCTIONS

Pestigas™ is self-propelled requiring no auxiliary power. Operation through the spray nozzle emits a fine mist which permeates the air with minute-sized particles toxic to insects.

A warning notice is to be placed on all door entries to treated areas. The notice indicates:

- a) Pestigas™ will be sprayed on;
- b) Day(s) of the week at;
- c) Time of day;
- d) Entry must not take place within two (2) hours of treatment;
- e) Emergency contact address and telephone number.

PROTECTION OF OTHERS

DO NOT point applicator towards any person.

Compressed gas. Avoid contact with high pressure spray.

PROTECTION OF WILDLIFE, FISH, CRUSTACEA AND ENVIRONMENT.

DO NOT contaminate dams, rivers, streams, waterways or drains with the chemical or used container.

STORAGE AND DISPOSAL

Store Pestigas™ cylinders in a cool, well ventilated, locked area out of reach of children or unauthorised persons.

Cylinder always remains the property of CIG and must be returned for refilling.

SAFETY DIRECTIONS

Repeated exposure may cause allergic disorders. Sensitive workers should use protective clothing.

Avoid contact with the skin and eyes.

Do not inhale spray mist.

Wash hands after use.

FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre.

If swallowed, and if more than 15 minutes from a hospital induce vomiting, preferably using Ipecac Syrup A.P.F.
